2. General Information

2.1. Background

The purpose of this document is to specify the functional requirements for the UKG Payroll Journal Entry inbound integration for Oracle Fusion.

2.2. System Requirements

This integration will import data into Oracle Fusion Cloud. UKG will be the source of the data.

3. Data Import Requirements

3.1. Journal Entry Data Import Requirements

Field	Description	Sample Value
Status Code	Journal Import Status. Use the value NEW to indicate that you are importing new data into the General Ledger. This will always be "NEW".	NEW
Ledger ID	Enter the appropriate ledger ID value for the journal entries data. You can view the ledger ID for your ledgers in the Manage Primary Ledgers page. The ledger id column is hidden by default, but you can display it from the View -> Columns menu. This will be 300000002447037 for the ERP test instance. The ledger ID for the CRP2/UAT/Prod instance will be provided at a later stage.	300000002447037
Effective Date of Transaction	Effective date of the journal entry. Used to assign the accounting period. Enter journal accounting date in YYYY/MM/DD.	2025/01/01
Journal Source	Enter the journal entry source name for your transaction. You can find a list of valid values in the Manage Journal Sources setup task page. This will always be "UKG Payroll".	UKG Payroll
Journal Category	Enter the journal category name for your transaction. You can find a list of valid values in the Manage Journal Categories setup task page. This will always be "UKG Payroll".	UKG Payroll
Currency Code	Entered currency of the transaction. Use the Manage Currencies task to find valid values. Use the three character ISO currency code. Example: US Dollars is USD.	CAD
Journal Entry Creation Date	Enter Journal creation date in YYYY/MM/DD.	2025/01/01
Actual Flag	Balance type of the journal. Use: A. Meaning: Actual. This will always be "A".	A
Segment1 (Fund)	Enter a segment value for this segment of the chart of accounts. Validation: Must be a valid value for that chart of accounts segment. Chart of accounts must be for the ledger entered on this journal line. This can be 01 or 02 for LLBC.	Operational Fund Capital Fund
Segment2 (Department)	Enter a segment value for this segment of the chart of accounts. Validation: Must be a valid value for that chart of accounts segment. Chart of accounts must be for the ledger entered on this journal line.	E.g.: 1101

Segment3 (Object)	Enter a segment value for this segment of the chart of accounts. Validation: Must be a valid value for that chart of accounts segment.	E.g. 51111
Segment4 (Location)	Enter a segment value for this segment of the chart of accounts. Validation: Must be a valid value for that chart of accounts segment.	E.g. 001
Segment5 (Future 1)	Enter a segment value for this segment of the chart of accounts. Validation: Must be a valid value for that chart of accounts segment. This will always be "99".	99
Segment6	Enter a segment value for this segment of the chart of accounts. Validation: Must be a valid value for that chart of accounts segment. This will always be "9999".	9999
Segment7	This should be left blank.	
Segment8	This should be left blank.	
Segment9	This should be left blank.	
Segment10	This should be left blank.	
Segment11	This should be left blank.	
Segment12	This should be left blank.	
Segment13	This should be left blank.	
Segment14	This should be left blank.	
Segment15	This should be left blank.	
Segment16	This should be left blank.	
Segment17	This should be left blank.	
Segment18	This should be left blank.	
Segment19	This should be left blank.	
Segment20	This should be left blank.	
Segment21	This should be left blank.	
Segment22	This should be left blank.	
Segment23	This should be left blank.	
Segment24	This should be left blank.	
Segment25	This should be left blank.	
Segment26	This should be left blank.	
Segment27	This should be left blank.	
Segment28	This should be left blank.	
Segment29	This should be left blank.	
Segment30	This should be left blank.	
Entered Debit Amount	Transaction debit amount in the entered currency. Do not use currency formatting symbols.	100.00
Entered Credit Amount	Transaction credit amount in the entered currency. Do not use currency formatting symbols.	100.00
Converted Debit Amount	This should be left blank.	
Converted Credit Amount	This should be left blank.	

REFERENCE1 (Batch Name)	You can optionally enter a string that can be used as a batch name when journal is created. “UKG Payroll - MMYYYY”.	“UKG Payroll - MMYYYY”.
REFERENCE2 (Batch Description)	You can optionally enter a string to be used as batch description. “UKG Payroll - MMYYYY”	“UKG Payroll - MMYYYY”.
REFERENCE3	This should be left blank.	
REFERENCE4 (Journal Entry Name)	You can optionally enter a string that can be used as a journal name when journal is created. “UKG Payroll Journal - MMYYYY”.	“UKG Payroll Journal - MMYYYY”.
REFERENCE5 (Journal Entry Description)	You can optionally enter a string that can be used as a journal description when journal is created. “UKG Payroll Journal - MMYYYY”.	“UKG Payroll Journal - MMYYYY”.
REFERENCE6 (Journal Entry Reference)	This should be left blank.	
REFERENCE7 (Journal Entry Reversal flag)	This should be left blank.	
REFERENCE8 (Journal Entry Reversal Period)	This should be left blank.	
REFERENCE9 (Journal Reversal Method)	This should be left blank.	
REFERENCE10 (Journal Entry Line Description)	This should be left blank.	
Reference column 1	This should be left blank.	
Reference column 2	This should be left blank.	
Reference column 3	This should be left blank.	
Reference column 4	This should be left blank.	
Reference column 5	This should be left blank.	
Reference column 6	This should be left blank.	
Reference column 7	This should be left blank.	
Reference column 8	This should be left blank.	

Reference column 9	This should be left blank.	
Reference column 10	This should be left blank.	
Statistical Amount	This should be left blank.	
Currency Conversion Type	This should be left blank.	
Currency Conversion Date	This should be left blank.	
Currency Conversion Rate	This should be left blank.	
Interface Group Identifier	This should be left blank.	
Context field for Journal Entry Line DFF	This should be left blank.
